BRACELET - MADE FROM RECYCLED PAPER

Paper bracelets

These cute bracelets are easy to make.

And if you have any leftover wrapping paper, don't throw it away. Get inspired and see more here.

Can be made in all kinds of colors and types of paper - old books, wrapping paper, Donald Duck paper and magazines, weekly magazines, book volumes, coffee bags etc.

You must use

Paper

Sissor

Clear packing tape - approx. 5 cm. wide

You can see a fantastically good guide on the blog [genbrugblirguld](#). You enter a blog where she shows with both pictures and text how you approach things.

If you make the bracelets from paper and not coffee bags, they must be covered with packing tape before folding and braiding. This makes them "inexhaustible". Bracelets can be braided in different sizes - however with an even number of links - otherwise the ring cannot be closed.
