Continue to increase the number of stitches by 1 between each increase (2 sc in the same st) until the work measures 4 cm in diameter - or until it is the desired size.

Break the yarn and make another belly.

The 2 pieces are sewn together with batting in between.

Sew with contrasting color (here brown) from the center and around - stick the needle out again in the middle. This forms the flower. Tighten the thread a little bit. Stapled on the back

Sew on the brooch pin with sewing thread.

Sew on beads

Vupti - now you have your very own personal

brooch. Also a sweet friend gift.
