Then fill the entire owl with cotton wool and press the hole together at the top - crochet together with double crochets.

FINGER:

1st row: 8 chain stitches, sc in the 2nd ch and then in the stitches of the row. Turn with 1 ch.

2nd row: 2 sc in 1st st 6 sc - turn with 1 ch (you do this after each row when you turn)

3rd row: 1 sc in each stitch

4th row 2 sc in the 1st st, 7 sc in the row.

Continue in this way, taking out at the beginning of every other row until you have crocheted 9 rows in total.

10 row: 2 sc. together, sc in each st along the row

11 row: crochet back with sc in each st.

Row 12: 2 sc together, sc in each st along the row.

Continue the decreases on every other row until you have just one sc left on the row.

Crochet the other wing opposite with increases and decreases - it must be mirrored.

Around the wing, crochet a round of double crochets - remember to crochet 3 sc in the same st. when you turn the corner so that the corner does not curl.

Sew on the wing

BEAK: 6 ch, sc in the 2nd ch and then sc across the row, turn with 1 ch

In the middle of the next row, crochet 2 sc together and otherwise 1 sc in the other sts. Turn with 1 ch.

This is how the decrease is continued on each row until there is just one

sc. back. EYES:

Crochet in the round - just like when you started the bottom of the owl.

The eye must be the size you want and then sewn on.

I used a button for the eyeball, but it can also be crocheted and sewn on. Crochet 2 eyes in total.

Can be crocheted in different sizes depending on how big you make the base and how high you want the owl. Stripes, colors and other things you mix yourself.
