

### Practical and smart hat with wide grooves

It's still cold out there - unbelievable, true. You can knit this hat in one evening and it's easy to do. In addition, it is practical and smart. You get the free recipe here and you can see more below.

**You will need:** Double pointed needles no. 7

About 1-2 skeins of yarn suitable for needles 6-7 approx. An example could be Hjertegarn - nature wool

#### **You do this:**

Knitting needles and yarn thickness can be varied - yes, and so can the number of stitches on the round - the principle in the pattern will be the same ;o)

Cast on 56 stitches on needle 7 and distribute the stitches on 4 double pointed needles. Knit 5 rounds. purl, 5 rounds. smooth. There must be a total of 5 purl grooves - without decreases. Then continue only in garter stitch: Knit 2 rounds. straight stitch. The next round after that is 6 knit, 2 knit together - round out. = 49 stitches.

Knit 2 rounds, then knit 5, knit 2 together - end of round = 42 stitches

Knit 2 rounds between each decrease-round. The next decrease round is 4 knit, 2 knit together round out.

Continue to decrease the number of garter stitches in between - K3, K2 together, etc... Remember 2 rounds of garter stitch between the increase rounds.

Continue the decreases until there are 14 stitches on the round. Break the yarn and pull the string through the remaining stitches. Fasten ends and then... - you

have a nice hat.
